Fitness Road Test: Swim Gear Out of the Pool

TriSwim Shampoo, Conditioner and Body Wash

Pool water can be damaging to hair and skin, but TriSwim's shampoo and conditioner get the chemicals out of your tresses and restore them to pre-pool conditions. With scents specifically designed to neutralize the chlorine smell and ingredients such as aloe and vitamins, these are sure to become favorites for your post-pool beauty time. Plus, tight flip caps on the tubes are the best design for staying sealed in your gym bag.
